For Shop and Factory Wear

It is far more than a happy circumstance that Hirth-Krause shoes are registering such remarkable wear and comfort.

It was concluded that they should, before they left the factory.

Their great wear and comfort qualities were scientifically pre-determined, in Hirth-Krause tannery and shoe factory.

There was worked out the process for treating leather, giving it extraordinary strength and resistance.

There was designed the comfort-giving, anatomical last.

The man who works will recognize at sight the quality in these shoes.

Look for the "Mileage Guarantee" and ask for these shoes by name:

The Swift Dollar

The Swift Dollar shows you what becomes of the money we get for meat and all by-products.

It is interesting to study and to show to others, and helps you to understand the outstanding and fundamental fact of the packing business — a small unit profit on a large volume of sales.

It is light, the size of a dollar, and makes a satisfactory pocket piece.

One was made for you.

Send for it.

Miss Inez Pressler is home from Alma this week, enjoying the spring vacation.

How Diphtheria is Contracted.

One often hears the expression, "My child caught a severe cold which developed into diphtheria," when the truth was that the cold had simply left the little one one particularly susceptible to the wandering diphtheria germ. If your child has a cold when diphtheria is prevalent you should take him out of school and keep him off the street until fully recovered, as there is a hundred times more danger of his taking diphtheria when he has cold. When Chamberlain's Cough Remedy is given it quickly cures the cold and lessens the danger of diphtheria or any other germ disease being contracted.
